-No Flying Sails Division (NFS) - Boats may register in the NFS division. However, boats in the NFS division will start in their appropriate division as shown above according to their appropriate PHRF rating. NFS boats must use working sails only, attached by their luff to permanent stays or spars. Not less than 90% of the luff length must be attached to the permanent stay or spar with not less than eight (8) snaps or sailtrack slides distributed evenly along the luff; or, alternatively attachment may be by a luff-rope groove. Only one (1) working

Only one sail may be used forward of the main mast on Sloops, Cutters, Yawls, and Ketches, unless the yacht is specifically rated for carrying additional sails. When changing jibs, the "up" hoisted jib must be fully lowered to the deck before a replacement jib is raised. Before lowering the 'up' jib, the replacement jib may be hanked on the forestay, or started in the second headfoil groove up to five feet above deck. The second halyard may be attached before lowering the "up" jib. Jibs may not be attached to temporary or detachable stays. NFS ratings exclude such sails as spinnakers, mizzen staysails, streakers, drifters flown from their own temporary stays, bloopers, etc. Spinnaker poles and whisker poles may not be used.
